### Kampala Uganda

## Project

### Supply And Installation of Networked Kodak scan stations

## CASE STUDY

Uganda Revenue Authority (URA) is a government revenue collection agency established by the Parliament of Uganda and it is responsible for the assessment, collecting and accounting for various forms of tax revenue, in Uganda. It is also responsible for the enforcement of the Central government's taxation laws in the country therefore it deals with a lot of records.

**COSEKE Uganda LIMITED** has supplied over 100 Kodak Scan stations to Uganda Revenue Authority.

With the Acquisition of these scanners, Uganda Revenue Authority has found it easy to communicate among its departments and regional offices using the networking facility on the scan station(s).

Uganda Revenue Authority has registered efficiency in production with the use of the scan station in its' several departments.

## WHAT ARE KODAK SCAN STATIONS?

**Kodak Scan Station(s)** are color A4 document scanner(s), ideal for any business looking to share data quickly and efficiently, via an easy, intuitive interface with a very robust design.

## ERGONOMICS

**Kodak Scan Station** scans and sends documents at the touch of a button. From one scan, you can simultaneously send a document to the network, to e-mail, to print, to fax, to FTP and can be used to scan into Microsoft SharePoint environments. Scan profiles can easily be created and accessed via the touch screen. It also features remote administration allowing you to manage a fleet of installed **Scan Station** scanners from one place. (Updates, configuration, etc.). The application is easy to use and intuitive: create and manage lists of scanners, display and manage statuses, etc. The "Voice Attachment" function offers voice management, enabling users to send audio messages containing comments or instructions with scanned documents, to ensure clear communication. This feature is very useful in that it avoids having to type messages on the touch screen.
